SUMMARY

Frontend developer with a B.Sc. in Information Systems, passionate about creating user-friendly and responsive web applications.

I have strong work ethic, fast learning, and ability to thrive under pressure. A proactive team player with sharp attention to detail and a commitment to continuous improvement.

EXPERIENCE

FRONTEND DEVELOPER

Cybereason

2023- 2025

- Experienced in developing frontend features for cybersecurity platforms (EDR/XDR).
- Built and maintained reusable React components across multiple features.
- Developed responsive and accessible user-facing interfaces using React, TypeScript, and Next.js/Vite.
- Collaborated with UI/UX designers to bring high-fidelity mockups to life.
- Worked closely with the backend team to implement new features and improve the user experience.
- Contributed to internal design system and maintained component libraries.
- Developed features as part of a cross-functional agile team, actively participating in daily standups, sprint planning, and retrospectives.

NOC ENGINEER

Cybereason

2021-2023

- Monitored and managed large-scale network operations and infrastructure.
- Identified, diagnosed, and resolved critical network issues in real time.
- Utilized tools like GCP, Zabbix, Kibana, and internal dashboards for analysis.
- Collaborated with cross-functional teams to escalate and resolve incidents efficiently.
- Maintained and enforced network security protocols.
- Documented incident responses and created standard operating procedures.
